Business Profile

Aldeg TECHNOLOGIES is an established Websites, Systems, Domains, Hosting, Networking & Business integration Service Company with a first class reputation. Technical staffs are physically located throughout the Tanzania to give an effective national service.

Aldeg TECHNOLOGIES recognizes that technical expertise is our chosen business areas and quality of service is of chief importance. The company deploys its expertise to address global ICT issues facing the development and support of Business Systems and Networking.

This philosophy has secured an impressive and ever growing client list, which continues to entrust high value ICT services to Aldeg TECHNOLOGIES. Having key staff who are highly qualified with broad experiences is fundamental to our meeting the increasing expectation and demand of our clients. The continued growth of Aldeg TECHNOLOGIES is through a policy of investment in Research and Development to ensure that we can provide solutions for the most complex of situations, together with first class support and strategic alliances.

Aldeg TECHNOLOGIES is fully committed to quality working practices, our implementation of policies and procedures to exacting standards have been subject to appraisal and audit by a number of companies.

As well as providing all aspects of networking, system development and implementation services, Aldeg TECHNOLOGIES also assist organizations in the logistics of planning and delivering major roll-out campaigns. Aldeg TECHNOLOGIES also believe in the partnership approach in both understanding the requirement and working together to find the most advantageous.

Environmental Policy.

As a responsible business entity, Aldeg TECHNOLOGIES is committed to protecting the environment in compliance with the environmental laws and the practices of the communities where it operates.

While pursuing our activities we endeavor to minimize any poor impact on air, water and land by means of pollution prevention and energy and water conservation. By doing so, we achieve cost savings, an increased operational efficiency, improved quality of products and services and ultimately, a safe environment for the community as a whole and a healthy workplace for our employees.

General Policy.

Aldeg TECHNOLOGIES recruits well educated, flexible and ambitious people who thrive on change and challenge, are innovative, self-confident and accept responsibility by taking initiative and adapting to a stimulating international working environment.

Aldeg TECHNOLOGIES intentionally recruits people from various nationalities, in order to allow for a transfer of experiences and bring people of different origins and cultures together to achieve a common goal.

Equal Opportunities.

Aldeg TECHNOLOGIES is an equal opportunity employer and applies an Equal Opportunities Policy (EOP) for this purpose. This policy covers all aspects of employment, from advertising of vacancies, selection, recruitment and training to working conditions and reasons for termination of employment.

To ensure that this policy operates effectively we regularly monitor the working environment and take appropriate action if necessary. Our actions are directed to immediately eliminating unlawful direct and indirect discrimination and promote equality of opportunity.

Our long term aim is that all the society groups are proportionally represented in the composition of our workforce. We set targets with a fixed timetable for hiring people belonging to groups that are underrepresented in the workforce. Where necessary, specific steps in conformance with the relevant Aldeg TECHNOLOGIES legislation are taken to help disadvantaged and/or underrepresented groups to compete for jobs on a genuine equal opportunity basis. Our EOP and the measures for its implementation have been defined on the basis of advice from relevant bodies and in consultation with representatives of our employees.

About Us: **Aldeg TECHNOLOGIES, "Home of PROGRAMMING"**

We have earned a reputation for high performance and reliability that is based on providing our customers with products that are constructed from quality components. Accurate testing ensures that our products are durable and operational under even the most extreme conditions.

Our Philosophy:

We say no to negotiation when it comes to superiority. We set our standards high and then we aim to outshine them. We do this by investing in the continuous improvement of our products and services by building a team that is knowledgeable and dedicated to ensuring that we exceed the power needs of our customers.

Our Commitment:

We are dedicated to reliability in all that we do. Reliable products. Reliable service. Reliable relationships. We design and handcraft our products to work under demanding conditions by putting them through exact testing before they leave the manufacturing plant. We back up our commitment to reliability by having our engineers and support staff available for questions and concerns. Our continuous communication with our customers allows us to adapt and grow with their power requirements.

Our Goals:

At ICT we develop standards and set goals that help contribute to our success and your satisfaction. These are the goals that we have set for ourselves:

- Our goal is to be available for our customers when they need us.
- To build lasting relationships they can rely on.
- To connect with new business and continue to grow into the new century.
- To continually improve our services with a well-informed and friendly support staff.
- To create a trouble-free experience for our customers.
- To be a leader in the ICT industry.

Our goal is success. And success for ICT means listening to our customers, understanding their supremacy needs and then working to find solutions that satisfy these needs.
